ZASTOLYE™

Russian for: "To the table"

Kinetic glass table designed for entertaining a group. Tabletop can spin in forward or backward motions continually by ones push of the hand. The foot pump is designed to raise, lower, or lock the rotation lift feature when needed.

Stainless Steel machined hub is hermetically attached to the bottom of the glass. Glass top is removable from hydraulic lift base by three countersunk setscrews.

Tempered glass top: 3/8 thick

Diameter: 42 inches

Adjustable table height: 16.0 - 24 1/4 inches

Base: Chrome plated

Weight: 85 lbs.

Delivery: FOB Cambridge, MA
