The bathroom features Analog wallpaper by Aimée Wilder.

Stair riser graphics are by the Boston brand strategy and design firm Proverb and installed by WB Incorporated.

The kinetic piece "Press" by FPAC artist Eric Starosielski features two revolving glass cylinders illuminated by a cold cathode light.

Powder Room & Stairway

The smallest rooms present major opportunities for splash. The powder room, with its retro silver-and-black boombox wallpaper, and the streamlined staircase with custom graphics, prove that bigger isn't always better.

“ Lucy [of Lucia Lighting & Design] was a little worried about using unadorned fluorescent fixtures in the bathroom, but we love their edginess. ” - Christine Rankin
